Semi Automatic Flat Knitting Machine Model: RT-S-F13AJ

This machine is used for flat knitted fabric with two driving methods: manual or motor-driven. A programmable controller allows the operator to make a simple program. It is suitable for knit various fabrics with different patterns.

Technical Parameter :

Condition	Brand new and latest version
Control system	PLC control /Microcomputer control/ Automatic system
Display type	LCD display
Display size	2.5"
Knitting width	42 inches
Needle gauge	12G
Needle type	Latch
Number of feeder	2
Driving methods	Manual /motor-driven
Stop motion	Auto stop motion will work for yarn breaks.
Needle widening	Automatic needle-widening.
Power supply	220V ,50Hz
Power consumption	370 W
Packing Dimension	180X80X190 cm
Weight	200 kg
